### **DETAILED ACTION**

It is understood that claims 1 and 7 will be amended to include the ATCC Accession number once a deposit has been made. Additionally, it is understood that Applicant will amend the specification to include the date of deposit.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-18 are pending.

1. Claims 8, 9, 11, 12, 13, and 14-18 and dependent claim 10 remain rejected under 35 U.S.C. 112, first paragraph, for the reasons stated in the last office action.

Applicant argues that a skilled plant breeder can easily cross the instant invention with any other potato plant and is therefore in possession of the claimed invention at the time of filing.

This argument has been carefully considered but is not considered persuasive for the following reasons: This argument does not address the written description rejection as made. The rejection is not based on one of skill in the art being able to use a particular method, rather as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The Applicant did not have

possession of every single possible seed or plant produced from seed that originated from an undefined cross.

2. Claim 10 remains rejected under 35 U.S.C. 112, first paragraph, because the claim has not been amended to recite that the regenerated plant has all the physiological and morphological characteristics of 'FL1879'.

3. Claims 1-7 are allowable with the proviso that the ATCC Accession be added to claims 1 and 7.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
